Problem Solving

absorb

Title	Duration (minutes)	Author	Course Description
• 6 Thinking Hats as a Creativity Technique	20	ISEAZY SKILLS	In this, you'll learn the essentials to apply this technique to become a person with more flexible, reflexive and original reasoning skills, generating innovative solutions in groups or individually.
• Analytical Thinking: The Key To Making Good Decisions	70	ISEAZY SKILLS	In this course, you'll learn the key elements to enhance your ability to analyse information objectively. This will help you take better decisions and solve problems more satisfactorily without getting carried away by emotions that can cloud your judgement and harm you. .
• Creative Thinking Training	15	iHASCO	This Creative Thinking Training course aims to help users understand why creative thinking is an important skill in the workplace, as well as helping them to understand how they can practice their creative thinking.
• Critical Thinking	15	The Access Group	Critical thinking is essentially your ability to reason and question ideas, arguments and findings. This module explores critical thinking, the importance of taking an analytical and objective approach to problem solving, and ultimately how to think smarter.
• Design Thinking	26	Skilla	Ever heard of design thinking? Any idea what it's about? Why is it useful and how can it be applied? In this course, we'll give you the answers to these questions and more. We'll take a look at what design thinking means, why it can help you in your day-to-day work, and what tools you'll need to put it into practice.
• Strategic Thinking	19	Skilla	When developing a strategic plan, have you ever had the feeling of sailing toward a foggy port, without seeing lights to guide you or with treacherous rocks? Have you ever felt that you are going round in circles, especially when you're under stress? Have you ever done something with the best intentions which nevertheless resulted in unintended consequences? With this course, you will learn how to improve your "strategic thinking" with a broad view of the situation, a clear definition of your objective, and the different paths you can take to reach it.
• Thinking Creatively (UK)	30	Kallidus	Solving problems as a team needs a range of different thinking styles. Learn how to overcome blocks to creative thinking in the team and harness different thinking styles. Explore how to help your team approach problems positively and enthusiastically using a six stage process.
• Decision Making	19	Skilla	Have you ever not known "which way to turn"? Have you ever had the feeling of not being able to choose between alternatives that all seem right? Have you ever not wanted to make a decision for fear of making a mistake? Did you want to let others take responsibility for your decision? Take this course to find out how to decide quickly and effectively!
• Effective Decision Making	70	Kineo	This course will teach you the skills needed to reach the best possible decisions, improving your knowledge of the decision-making process to enable effective decision making in the workplace.
• Make Intelligent and Sound Decisions	70	ISEAZY SKILLS	In this course, you'll learn the key points for making decisions intelligently, acting confidently and responsibly in order to effectively achieve personal and professional goals.
