Portal Specifications

Welcome to Absorb!

Customizing a portal to match your brand look and feel is the first step to making this portal your own.

To get started, we need guidance—and a few creative assets—to ensure the design is just right. Please read the below and supply the complete list of images and direction we need to get started.

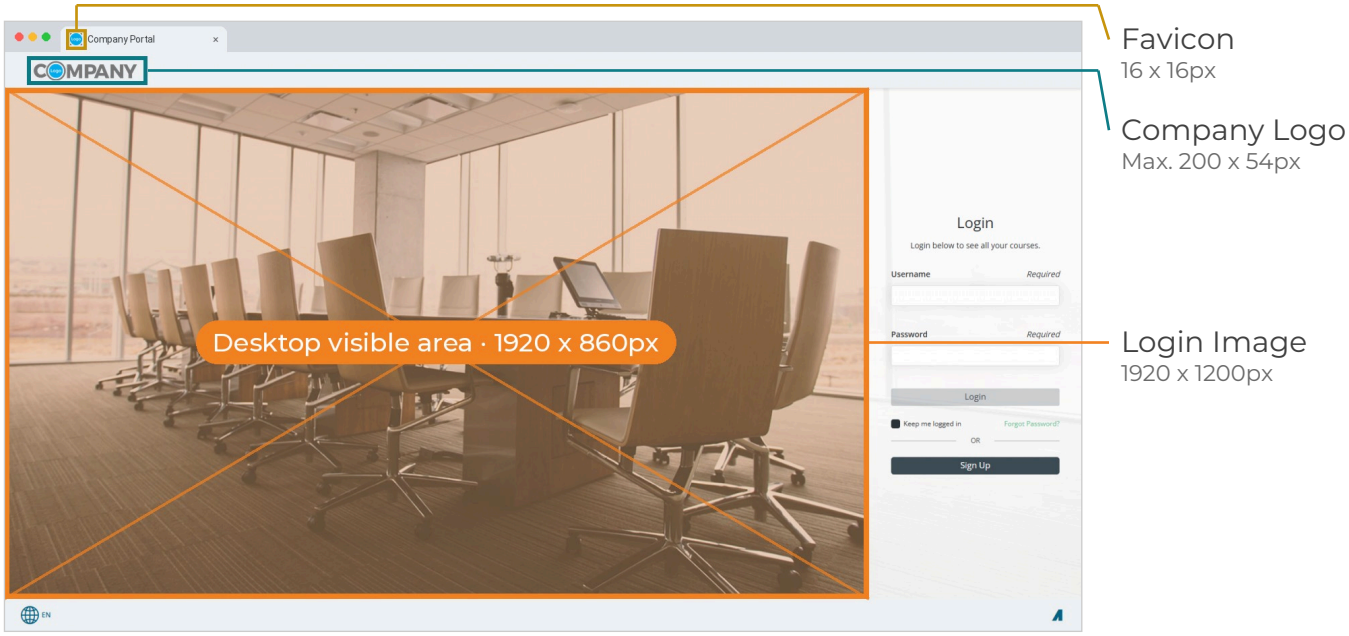

What We Need:

Compatible file types are JPG or PNG, unless otherwise indicated. Image sizes suggested here are the recommended size to best fit the space.
